

NOTES

Sustainability Committee

Date: Thursday, May 28, 2020 • Time: 2:00 pm – 3:00 pm

❖ **Members present:** Carolina Biagi, Mariah Chrans, Lucia Jones, Barbara Wiman, and Alissa Rankin

❖ **Discussion**

- Certification Perception Survey Review – The team reviewed the survey that will be conducted during the 6/11/2020 Symposium event. The intent is to collect a larger number of CHW responses. Out of the 40 responses received previously, only 11 of them were from CHWs.
 - The team recommended having a CHW facing page that provides...
 - an explanation of the surveys not impacting their jobs in any way.
 - an explanation of the Likert scale because it may be confusing for those who are not native English speakers.
 - They also suggested providing a middle section that allows participants to neither agree nor disagree.
 - It was also recommended to have participants only be CHWs.
- CHW Education Program:
 - Received funding from the Kansas Department of Health and Environment to contribute to both the train-the-trainer pilot and offering CHW scholarships.
 - Train-the-Trainer – This has been postponed due to funding but can now proceed
 - Training CHWs
 - Mariah has at least four students who would like an online only format to the CHW class.

❖ **KDHE Updates** – None.

❖ **Next steps**
