Full-Time, 1-Year Position | $15,000 Annual Living Stipend | Education Award or Cash Stipend

Center for Public Health Initiatives VISTA (Based in Wichita, KS)

WSU Community Engagement Institute

Improve the health of Kansans! Join the Center for Public Health Initiatives in our work to promote change in public health systems.

The Center for Public Health Initiatives VISTA will build the capacity of local and state partners serving Kansans who receive Medicaid services to overcome health disparities that often result from and perpetuate the cycle of poverty. The VISTA will develop resources, cultivate partnerships with state and local health departments and community health workers, and support cross-center work that connects public health, prevention, behavioral health, and other teams at the Community Engagement Institute.
